

Chicken Swing

Estimated Time: 20 Minutes

Skill Level: Easy

This is a family-friendly activity!

You Will Need:

- 3-foot length of wood, roughly
- saw
- 1/2in diameter rope
- an extra pair of hands
- drill with a bit slightly larger than rope
- measuring tape
- scissors

Directions:

Step 1:

Saw down your tree branch or gather alternative materials for the swing (think: scrap wood)

Step 2:

Shave off the ends. Don't leave any pieces of wood that could hurt chickens.

Step 3:

Drill holes on both ends of the tree branch (you want your drill bit to be a bit larger than the circumference of the rope you're using).

Step 4:

Measure and cut your rope. We will hang these in various locations, so please make the rope 3-6 feet long. Be sure to give yourself at least a foot extra for tying knots and attaching to the structure.

Step 5:

Feed one piece of rope through one end of your tree branch and tie a good knot. Repeat for the other end.

Woohoo! All Done.

Thank you for creating an enrichment item for the residents of Full Circle Farm Sanctuary! To let us know your project is ready and to arrange for pickup, please email info@fcsanctuary.org.

If you wish, you may mail your project to: **961 White House Pkwy, Warm Springs, GA 31830**

We appreciate you!
